We take pleasure in bringing to Hyderabad, AIAAROCON2017 to address the critical aspect of management of obesity impacting millions of Indians causing huge burden of Non communicable Disease. Telangana Chapter of All India Association For Advancing Research in Obesity (AIAARO) has taken on a major initiative in bringing to fore the concerns of increasing obesity rates and management taking inputs from leaders in obesity research for assessment methods, diagnosis, implications, appropriate medical, dietary, surgical management and other novel treatment options..

Target Audience

Physicians, diabetologists, endocrinologists, general practitioners, pediatricians, gynaecologists, obstetricians, orthopaedic surgeons, and nutritionists. This conference provides a wonderful knowledge sharing platform.

Scientific Program: The program is planned for all medical professionals dealing with obesity to provide insights for practical management of obesity with hands on workshops, plenary sessions, orations. The selected faculty are from all across India from recognized centers of excellence.

The program focusses on

- IMPLEMENT therapeutics and evidence-based strategies for diagnosing and treating obesity.
- UNDERSTAND evidence-based science for neuroendocrine, endocrine, microbiota and cognitive mechanisms regulating energy balance and body weight.
- APPLY lessons about the impact of nutrition and obesity initiatives, Metabolism/Integrative Physiology, Neuroscience, Clinical Studies & Practice, Population & Public Health, and Dietary.

About AIAARO

The All India Association for Advancing Research in Obesity was founded in 2001. The motto of the association is to bring healthcare professionals with varied expertise and backgrounds together under one umbrella for treating obesity more effectively and to provide a forum for disseminating up to date scientific information to health professionals and the common man. AIAARO is an organization for the benefit of obese patients. Through the annual conference the association provides a forum for new ideas, encourages scientists, practitioners to share.
